

This week Jenny is partaking in the monumental task of managing both Tulsi and farm while I am mostly building another high tunnel we recently bought used from farmer friends in Auburn. A former apprentice is down from Milwaukee to help with the construction. So, needless to say the newsletter is both light and late this week.

With the year winding down, we are approaching our final markets. Please note, next Wednesday(12/11) is the last on-farm market on WEDNESDAY for the year. We will have 3 markets after Christmas and all of them are on Mondays and all are on a holiday; New Years Eve, Martin Luther King Day, and Presidents Day. After the winter break, we will resume our regular market mornings beginning in April.

## Pictures Of The Week

Pak Choi interplanted with Dino Kale. We harvest the pak choi as baby before the kale leaves overtake the light space.

Tulsi loves chickens from a distance but when a hen invades her wheelbarrow safe space, the reception is not as cheerful.

Our produce may be found at:

- On Farm Market Wednesday Mornings from 9-12 (through December)
- North Highland Farmer's Market 1<sup>st</sup> and 3<sup>rd</sup> Wednesday afternoons, 4-6 pm
- We have a 100 member CSA with drop-off locations in Lagrange, Columbus, Auburn, and On-farm.
- You can also find our produce on the menus of Bare Roots Farmacy and Food Blossoms Catering out of Hamilton.

Take good care,

Chris and Jenny
